'WORKING' Is based on the book by Studs Terkel and was adapted by Stephen Schwartz and Nino Faso, The characters of WORKING are everybody you know! The situations are everyday situations. But this musical is anything but ordinary!

This premiere production takes a different look at the seemingly humdrum lives of working people revealing behind the Monday to Friday drudge a myriad variety of hopes, aspirations and dreams, yet a pride in their daily routine.

To match the mosaic quality of the book, Schwartz ('Godspell, The Bakers Wife, and the hugely successful 'Wicked') recruited a collection of songwriters to create the score with him, including James Taylor, Micki Grant, Craig Carnelia, Mary Rodgers, and Susan Birkenhead.

Packed full of exciting musical numbers, charting a record of daily life, you'll soon find your emotions turning and toes tapping along to this unique piece of work. This exciting new musical is not to be missed

This year Appeal has chosen to support **Accuracy by Colour For Reading, ABC** is a relatively unknown charity whose aim is to help and support sufferers of 'Irlen' or Scotopic Sensitivity Syndrome and raise awareness of the condition which affects approx. 12% of the population, a disability which prevents people of all ages from being able to learn efficiently and live comfortably.
